NOTES:

- Doors -
 - shall be hinged at exterior and other security areas, either - I such that pins are to the interior, or secured area or II such that pins are permanently installed, i.e. are not removable, either - I) by manufacture, or 2) by hinge enforcers, II with solid full-depth blocking behind each butt, III with fasteners penetrating that blocking and into structure to not less than 1 linear inch.
 - shall on each exterior door (including each attic access way) be secured with a deadbolt, which deadbolt - I shall be hardened, II shall throw not less than 1 linear inch, III shall embed not less than 1 1/2 linear inches.
- Exterior door -
 - shall have frames fastened on all sides - I securely to structure, II with solid, full-depth blocking behind each butt, III with fasteners penetrating that blocking and into structure to not less than 1 linear inch.
 - shall, for doors, have hinge butt fasteners - I securely attached to structure, II with solid, full-depth blocking behind each butt, III with fasteners penetrating that blocking and into structure to not less than 1 linear inch.
 - shall be protected from mechanical access of their lock cylinders - I with lock cylinder guards, or II hinge enforcers.
 - may be protected from mechanical access of their strike plate and bolt by a security box.
 - shall be mechanically, temporarily protected on the interior from removal by raising if able to be raised for removal.
 - shall be at the strike plate - I securely attached to structure, II with solid, full-depth blocking behind each butt, III with fasteners penetrating that blocking and into structure to not less than 1 linear inch.
 - may be glazed with shatterproof glass or polycarbonate.
- Strike plates -
 - shall be securely fastened to structure and have solid, full-depth blocking.
 - may be protected from mechanical access by a security box.
- Exterior double doors shall have set on their interior leading stiles hardened throats to structure at butts to both active and passive slabs.
- Door locks, bolts, and latches of all kinds on the interior face shall be keyless and otherwise operable without other mechanical assistance.

CALLOUT = IF AN ALPHAMERIC STARTS A PRODUCT CALLOUT, IT IS A PRODUCT OF MARVIN WINDOWS & DOORS, WARDAO, MN. IF JUST NUMERIC, THEN IT IS A GENERIC PRODUCT SUBJECT TO FURTHER DEFINITION WITH OWNERS' CONSENT, PRIOR TO ORDERING.
 SEE OWNERS** = NOTE THAT IN APPLICATION TO SOME GENERICS' CALLOUTS, DESIGNER IS NOT SUFFICIENTLY SURE OF DOOR MAKE AND MODEL TO SPECIFY ROUGH OPENING (ROD) DIMENSIONS WITH CONFIDENCE BEYOND TRADE STANDARDS DESIGNER APPLIES ELSEWHERE HEREIN UNDER FOR GAUGING ROUGH OPENINGS: 1) SINGLE-SWING, DOUBLE, AND BIFOLD DOORS: RO OF WIDTH = (COORD) SLABS) WIDTH+2", RO HEIGHT = SLAB HEIGHT+2"; 2) BY-PASS DOORS: RO WIDTH = (COORD) SLABS)+1", RO HEIGHT=SLABS)+2"; POCKET DOORS: RO WIDTH = (EXSLABS) WIDTH +2", RO HEIGHT = (COORD) SLABS)+1". IN THESE REGARDS, NOTE WELL THAT GREAT CARE SHALL BE TAKEN IN SETTING DOOR FRAME ROUGHS THAT COMPENSATE FOR DESIGNATED FINISHED FLOORING WHICH FINISHED FLOORING CAN LIFT FINISH FLOOR TOP OF FACE TO APPROXIMATELY 2" OVER SLAB-ON-GRADE TOP OF FACE ON LI AND NEARLY AS MUCH ON OVER ROUGH FLOOR ON LE.
